

I am so thrilled to be sharing our latest news, honestly with a year we have all had this really is a **huge boost to all the team** here and of course our wider community – our **clients** and **suppliers**!

**Seacourt is honoured to have once again received The Queen's Awards for Enterprise for its outstanding achievements in sustainable development.**

Winning the highest UK official award for business for the **fourth time** is an acknowledgement of everything the team does to make the company the **gold standard when it comes to ethical and environmental excellence.**

We are immensely proud of all we have achieved – Seacourt is proof that companies can act responsibly and prosper. This award cements our ambition to continually strive to do more for society and the planet. #queensawards

## **We have been recognised with the Queen's Award for Enterprise: Sustainable Development 2021**

**.... and we were delighted with our Awards in 2016, 2011 and 2007**

## **The UK's most prestigious business award**

The Queen's Award for Enterprise is awarded in three categories annually to recognise exceptional business achievement. **Seacourt is a quadruple winner of the Award since 2007 in the Sustainable Development category. Only 10 to 20 awards have been made in this category each year since 2010.**

The Seacourt award recognises that:

- Seacourt has pioneered many innovations to the printing process to find new ways to create the highest standards of print work **using fewer resources** and **minimising waste**. This includes addressing all elements of the supply chain
- The Seacourt print process is measured and audited as **'Planet Positive'** - 110% of all GHG emissions are either eliminated through avoidance or recycling with the balance offset each year.
- Seacourt sets the benchmark for sustainability and is open to **support its clients** to exceed their own environmental impact reduction targets.
- Seacourt has developed a customer collaboration sustainability "laboratory" which focuses on deep engagement with clients, suppliers, and others, and shares Seacourt sustainability knowledge with them.
