

Quality Policy

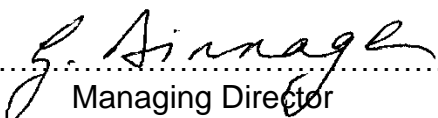

Every aspect of our business needs to be focused on providing our clients with a quality experience which extends well beyond just the quality of our print.

We have created procedures to help us to consistently deliver this experience and we will regularly review, and when necessary update these procedures to reflect the changing needs of our clients.

In addition, to help drive the business forward, we have set quality objectives to both monitor our performance as well as help develop new services and these objectives will be measurable and documented.

We will ensure that what we do meets all regulatory as well as voluntary requirements which help us stand out in a very competitive market.

Our aim and commitment is to continually strive to improve our quality management system so that we remain recognised as one of the UK's most innovative and recognised printers.
